
Visa Financial Literacy Fact Sheet

Visa's Mission

For more than 20 years, Visa has been a private sector leader in developing innovative, free programs that help people effectively learn the fundamentals of personal finance, including budgeting, saving, responsible spending and the wise use of credit.

About Visa's Financial Literacy Programs

- First program launched in the U.S. in 1991; expanded globally in 1996.
- Visa's flagship financial literacy initiative, Practical Money Skills, is a free program to help parents, teachers, students and consumers of all ages learn the essentials of personal financial management.
- Localized in 46 countries and 18 languages.
- Across Europe, Visa's education partnerships help young people manage their money in an increasingly digital world. We work in collaboration with expert organizations and in many instances with our client banks to provide resources and training, which have directly benefitted more than 1.1 million young people across Europe.
- Program websites receive over 11 million page views each month in the U.S., a number that continues to grow.
- More than 220,000 social media followers.
- More than 1 million hard copies of free materials have been distributed to parents, teachers and consumers.
- Surpassed the pledge made at the Clinton Global Initiative Conference to reach 20 million people worldwide with financial education by 2013; to date, more than 30 million people have been reached.
- Co-hosted a Financial Literacy Summit with the Federal Reserve Bank of Chicago; the eleventh Summit, themed Overcoming Barriers to Universal Financial Education, was held on April 12, 2017.
- Practical Money Center website launched in 2013 to provide Visa employees with financial literacy resources and tools to enhance their personal finance skills.
- Practical Money Matters weekly column provides expert personal finance tips carried in 500 newspapers.
- Innovative efforts have earned coverage from major media outlets, including CNN, The Financial Times, The New York Times, Time, USA Today and The Washington Post.

Classroom Curriculum

Practical Money Skills provides educators with comprehensive classroom curriculum complete with teacher's guides, lesson plans and student activities:

- Pre-K–Grade 2: Introduction to money basics and budgeting.
- Grades 3–6: Lays a foundation for smart money management by introducing allowances, budgeting, responsible spending, saving, investing and comparison shopping.
- Grades 7–8: Preparation for money management skills students will learn in high school; lessons include budgeting, buying a home, banking, credit, loans, saving, investing and consumer privacy.
- Grades 9–12: Activities and projects relating to financial goals, saving for college, career planning, credit, identity theft, budgeting, saving, banking, income, debt and investing to help students succeed in life after college.
- College: The What's My Score program teaches about credit scores, living alone and the skills required to meet a lifetime of financial challenges.
- Special needs: Customizable lessons approved by the Council for Exceptional Children about budgeting, making money, shopping wisely, banking, credit, loans, saving and investing.

Financial Literacy Games

To supplement the classroom curriculum, Practical Money Skills utilizes edutainment through fun educational video games that engage students in their financial futures.

- *Financial Football*: A new version NFL-themed educational video game released in the fall of 2018. Since 2006, 49 state governments and the District of Columbia have endorsed and distributed the game to every public middle and high school – nearly 30,000 schools – and has been played online more than 10 million times.
